

## Call for Live Demonstrations –APCCAS2014

APCCAS2014 is now open for the paper submission in “Live Demonstrations” track. The Live Demo will be the important track in APCCAS2014 in which demonstrations will be conducted in presentation booths with ample space to set up a working system, may it be interactive software on a laptop, a hardware setup or even a robot. Conference attendees are invited to experience the demonstrations directly, to interact with, play with, and challenge them. Presenters have the opportunity to show direct proof of their working systems in which the theory or algorithm has already been published or the research result is newly published in APCCAS 2014.

Proposals of live demonstrations should submit a one-two page description of the demonstration, using the same page formatting as for regular APCCAS papers. In case of already published work, it is mandatory to include a reference to at least one earlier publicly accessible publication.

The one-two page demonstration description must contain the following information; failure to include this information will be reason to reject the submission:

**1. Demonstration title and author information. The title must begin with ‘Live Demonstration:’**

**2. APCCAS track selection:** Please indicate one of the other APCCAS tracks (other than the live demonstration track! See general call for papers for a list!) with which your work is associated.

**3. Demonstration setup:** Describe the equipment that you will bring to APCCAS. Include a photograph and/or a screenshot. Only a power plug, a table and pin wall will be provided. Demonstrators are responsible for the transportation of their own equipment to the meeting site. Indicate any special requirements such as for example extra space for demonstrating robotic movement or other requirements which the organizers should be aware of.

**4. Visitor experience:** Explain the way in which a visitor experiences and interacts with your demonstration, how it reveals the essence of your work, furthers understanding, and what the visitor will learn.

**5. Earlier publication:** Please include one or more citations referring to your work about the scientific background of your live demonstration. This reference must be publicly and easily accessible for the reviewers – a URL is highly recommended! Inaccessible conference publications will be cause for paper rejection.

Please note that “double booking” of a demo combined with a lecture presentation is not allowed. Demo and lectures must be presented separately. Also, one award will be given to the best demo.

### **How to submit a Live Demo description paper;**

When you submit a Live Demo paper through our submission web site <http://www.apccas2014.org/submission.html>,

just select ‘Live Demo Track’.

### **Important Dates:**

Live Demo Papers Submission:	25 July 2014 (Firm extended)
Notification of Paper Acceptance:	8 August 2014
Submission of FINAL Papers :	12 September 2014

### **Contact:**

APCCAS2014 Live Demo Sessions Co-Chair: Masayuki KUROSAKI, Kyushu Inst. of Tech.
